The Center addresses space, remote sensing and aviation subjects that include, among others:

- data laws and policies
- intellectual property
- privacy
- liability
- international law
- imagery as legal evidence
- environmental issues
- licensing
- space exploration law

"The Center serves the public good and the remote sensing and space industry by addressing and conducting education and outreach activities related to the legal aspects of applying remote sensing, geospatial and space technologies to human activities."

Prof. Joanne Irene Gabrynowicz,
NRSSLC Director

*University of Mississippi
School of Law*

National Remote Sensing and Space Law Center

Conference Overview

This meeting will address leading issues that target the interface between Space Law and Intellectual Property Law in the 21st Century. The meeting will host legal experts in these fields from academic institutions, private practices, and industry to provide a comprehensive assessment of the issues from their various perspectives. Issues of immediate relevance for the participants will be shared via presentations and panel discussions with experts from Europe, Africa and North America.

Prof. Jacqueline Etil Serrao, Associate Director and Prof. Joanne Irene Gabrynowicz, Director

Conference Venue

The conference will be held in Moot Court Room I at the University of Mississippi School of Law. This state of the art facility will enable a live webcast of the symposium that is accessible at www.spacelaw.olemiss.edu

Persons with disabilities or special requirements may contact Michelle Aten at aten@olemiss.edu for additional assistance.

Speakers

- Tare Brisibe, National Space Research and Development Agency, Nigeria
- Gary Borda, NASA Headquarters
- Julie Cromer, Thomas Jefferson School of Law
- Joanne Gabrynowicz, University of Mississippi School of Law
- Lea Ann Lockridge, Louisiana State University
- Pam Meredith, Zuckert, Scoutt & Raenbeeger
- Kali Murray, University of Mississippi School of Law
- Gary Myers, University of Mississippi School of Law
- Harlan Onsrud, University of Maine
- Jacqueline Serrao, University of Mississippi School of Law
- Bradford-Lee Smith, Alcatel Alenia Space
